Dear Valued Patient,

It is with a mixture of joy and sadness that I have decided to retire from clinical medicine and close the practice of Peachtree Gynecology effective September 30, 2015. It has been a great honor and privilege to provide care to my patients during my career, but also very demanding on a personal level. After 25 years of clinical practice, I am ready to move on to the next chapter of my life.

The care of my patients has been entrusted to McDaniel and Durrett PC, a recognized practice in urogynecology and gynecology down the street from my office, located on the Piedmont Hospital campus, and with a secondary office near Northside Hospital. I have known Dr. Durrett for over 10 years, and trust that she and her practice are dedicated to providing a seamless transition for your ongoing care. She is an outstanding gynecologist and urogynecologist (named one of Atlanta Magazines "Top Doctors" for several years), with a focus on minimally invasive surgery. Her accomplished colleague, Dr. Mora, is likewise dedicated to women's healthcare, and has advanced training in pelvic surgery. Along with these physicians, the practice has two mid-level providers, Jessica Killeen (CNP) and Julie Sayers (PA).

In order to ensure continuity of your care, I have arranged to have your medical records transferred to McDaniel and Durrett PC, so that Drs. Durrett and Mora can handle any needs which you might have now or in the future. You will also, of course, have the option to transfer your records to another physician of your choice should you find that more convenient. Her practice will have access to your patient charts in EPIC and Allscripts (if applicable); however, because the practice does not use EPIC as their electronic medical record, you will need to call the office to schedule an appointment, request refills, or ask any questions related to your care.
